Activity Resources for Schools
Maths 1
1. Can you estimate the height of the fire escape?
   Write your answer in centimetres & metres
   (Hint: the rubbish bin is 65cm in height)

The Great Eggscape is one of our favourite activities where children make a Great Eggscape craft, containing a raw egg. This is then launched from the top of the fire escape.
   Tutors will need to go up and down the fire escape to launch each egg.
   Our Tutors can get up and down the fire escape in the following times:
   • Edd - 20 seconds
   • Imogen - 30 seconds
   • Jane 45 - seconds

2. Edd needs to launch 6 eggs. How long will it take him?
3. Imogen is launching eggs for 4 minutes. How many eggs has she launched?
4. Jane has got 4 eggs to launch. How long will it take her?
5. Can you write your own maths questions?
Maths Challenge 2

Here are some of the souvenirs we have in our shop

1. Mia wants to buy a Burwell Fox, a pencil and a sharpener. How much will it cost? If she hands over £5 how much change will she get?
2. Ollie has £10 to spend. He would like a Burwell Squirrel, a ball point pen and a hedgehog keyring. How much will it cost him? How much change will he get?
3. Evie wants to buy a magnet, a notebook & pen and a bookmark. How much money will she need to pay?
4. How much change would you get from £5, £10, £20?
5. Can you make up your own shopping lists and work out how much they will cost?
