**£200**

**Per person**

# DEVELOPING YOUR EXPERTISE: TEACHING AND LEARNING IN OUR PRIMARIES 3 DAY COURSE.

Each session will be based in a different school and includes:

- a lesson observation
- a focused learning walk
- collaborative learning with other primary colleagues
- opportunities to deepen and extend learning on the key themes of pedagogy, adaptation, assessment and subject leadership
- space and time to reflect on your learning journey as a teacher
- time to develop your own action plan to move your practice forward
- gap tasks between the sessions.

**Feedback from our pilot – Spring 25.**

*“Incredibly helpful to visit the 3 schools – everyone was incredibly generous of their time and welcoming into their classrooms. It was helpful to observe and take ideas away to implement in my own classroom. The course was well balanced with learning, reflecting and networking.”*
