

Teddy's Ambulance

Inspired by:

This week, the children have been exploring Science, Technology, Engineering and Maths (STEM) through an activity inspired by a local business as part of the Cambridgeshire STEM in the Early Years.

The children were challenged to design an ambulance for their toys using construction toys and craft materials. The children were challenged to make a vehicle that could transport a toy safely. This has been inspired by activities planned for students for Cambridge LaunchPad by the Cambridge Design Partnership, located near Highfields Caldecote.
