Answers: Escape the Island 1

The Rainforest

a) 200 ml of pineapple juice
b) 100 ml of mango juice

The Rocks

a) 4 fish are left for you
b) You would need 78 fish

The Storm

Yes you will have time to do both before the storm hits. You should be finished at 4:40pm. (The shelter will be ready at 4:15pm and 25 minutes after this is 4:40pm.)

The Beach

a) You will need 45 rocks altogether.
b) You will need another 90 rocks (to add to the 45 you already have).

The Cave

a) 13 weeks.
b) It would be 3 full months because a month is 4 weeks and 3 x 4 = 12.

The Boat

a) Approximately 6 times. To collect 1 litre (in half an hour), you would need to fill the jug nearly 3 times (350 ml + 350 ml + 300 ml = 1000 ml). You need to double this to find the number of times for 1 hour. 3 x 2 = 6.
b) 5 litres of water.
