My Memories Challenge

Imagine it is the year 2080 (or thereabouts!). Your grandson or granddaughter comes to visit you and says they have been learning about the Coronavirus in their history lessons at school. They want to know a bit more about what it was like when it happened.

Choose some objects which you think might be interesting to show them and help you to tell your story. Draw them here, and add notes. You might want to put it somewhere safe for the future!
