

1F SOUND AND HEARING

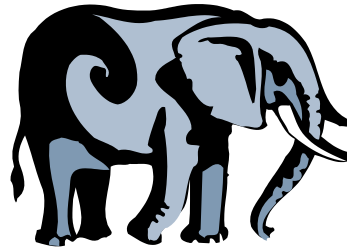

Glossary
ears – the parts of your body you use to hear things
sounds – we can hear sounds everywhere
noisy – a noisy sound is loud and not nice to listen to
silence – is when there are no sounds at all
music – is a collection of sounds that are nice to listen to

We can talk about sound using these words – **high, low, loud, quiet**

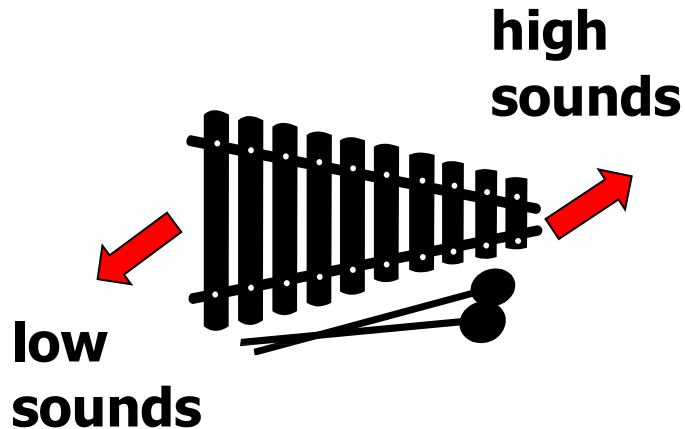

The mouse makes a **quiet** sound.

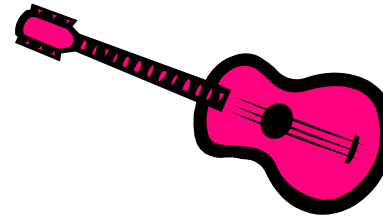

The elephant makes a **loud** sound.

When I play the xylophone these are the sounds I make -

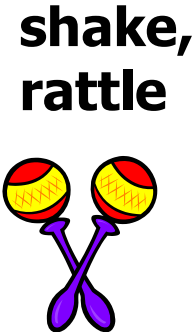

Here are some of the ways we can make **sounds** –

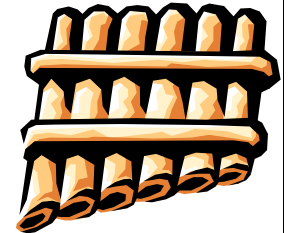

pluck, twang, pull

blow

shake, rattle

bang, tap, hit
