Treasure hunt ‘ai’ grapheme

This is a phonics game aimed at children working at Phase 3 (Letters and Sounds)

The idea is that each image is placed in the hall/outside area and then children go on a ‘treasure hunt’ to find the image. Children should then be encouraged to:

- Count the phonemes in the word
- Write each word, representing each phoneme with a grapheme
- Double check their word by drawing sound buttons underneath the word and sound talking it

Extension:

Write a sentence using one of the words.
