

# Chatteris Questions

- 1. Library** - Look at the plaque inside the entrance. How many years ago was the library opened by Mrs Norma Major? Give your answer in years, months and days.
- 2. Jubilee Gardens** - Use the signpost to estimate how many degrees you must turn from the direction of the library to the direction of the museum, both clockwise and anti-clockwise.
- 3. Post box** - Look at the large building opposite the post box and choose a window to investigate. How many rectangles can you see? Decide how to communicate your findings clearly.
- 4. St Peter and St Paul's Church** - Estimate the height of the church tower.
- 5. Community Bandstand** - Conduct a traffic survey. Decide on a question to investigate and how you will collect and record the data so that you can analyse and present your findings later.
- 6. Wenny Road Recreation Ground** - What would be the most accurate way of estimating the number of bricks used to build the outer wall? Complete your

Name(s): \_\_\_\_\_

Date: \_\_\_\_\_

**Extra challenge:** On your trail you will find or pass several plaques and signs which record a year in which a historic event happened. Record each year that you see and then write them in chronological order from the oldest to the most recent.
