

Protocols for school working.

If you feel unwell, have a high temperature or have a cough do not come to work and just let the SLT in charge know.

1. Arrive at school and wash your hands – continue recent protocols of handwashing.
2. Maintain as best as possible the social distancing concept of 2M
3. We will try to ensure that children keep to the same classroom and the same work space when they are indoors.
4. We will give children their own equipment so they do not have to share.
5. We will ensure there are wipes so that staff and cleaning staff regularly wipe down surfaces.
6. We will set up disinfectant dips for the end of each day so that toys, and washable equipment is cleaned.
7. Kitchen staff will be handling food in a very hygienic way as usual.
8. There will be staggered play times.
9. We will create social distancing at lunchtime by creating zones.
10. Normal school etiquette remains we will just be wearing appropriately relaxed clothes.
11. We will make a list of children that are in school and take a register twice daily.
12. Safeguarding remains the same and each week we will have a DSL in school.
13. Shower when you get home and enjoy a G & T.
