

St Neots Questions

Name(s): _____

Date: _____

- 1. Jubilee Bridge Garden** - Look at the long, curved bench. Do you think that your whole class could sit on the bench? How do you know?
- 2. Market Place: Monument** - Estimate the height of the monument in the square. Compare your strategy with those of others.
- 3. Market Place: Bus Stop** - Find the bus stop for buses to Bedford next to the market place. What time will the next bus depart for Bedford?
- 4. Brook Street Bridge** - Estimate the total number of planks used to make the base of the bridge and ramp. Walk over the bridge to check your estimate. How accurate were you?
- 5. St Neots Parish Church** - On the church you will see a clock with Roman numerals. Calculate how long it is until the end of the school day.
- 6. St Neots United Reformed Church** - Find and sketch features on the church, which have lines of symmetry. Can you find any features with more than one? More than two?
- 7. St Neots Museum** - If you are not local, how much would it cost for your group to visit the museum?
- 8. St Neots Library** - What is the difference in the time the library is open on a Tuesday and a Wednesday?

If you have time, complete a traffic survey on the bridge where the trail starts. Record how many of each type of vehicle cross the bridge in a set amount of time.

Extra challenge: On your trail you will pass several historic plaques and signs displaying dates or years. Record each of these years and write them in order from earliest to most recent.
