

## Events in your area

Our innovative community based/led projects that will support families living in our project reach areas to understand their role in supporting their child's communication, language and literacy development, and receive guidance and support on how to do this. Details of when and where these activities are happening will be shared on our Facebook page.

We also plan to offer our own activities for families to join as and when capacity allows. Details these activities will also be shared on our Facebook page.

## Training

Talking Together in Cambridgeshire offers free training to those who are part of the Early Years workforce across March, Chatteris, Wisbech, Huntingdon and North East Cambridge City. Please see the Booking Bug listing below for further details of courses which are listed under the Community Literacy Project heading.
