

[Home](#) > [Services to Schools](#) > [PSHE](#) > [Resources](#) > Whole School Review Materials

Many aspects of school life are linked to PSHE. Pupil wellbeing, British Values and SMSC are all examples of areas associated with PSHE which are threaded through all aspects of school experience.

Our Whole School Review Tools help schools to audit provision or curriculum, but also to consider these wider areas. Enabling staff to plan for meaningful developments which will affect the wellbeing of children, staff and the wider community. The aim is that developments in the area of Wellbeing are truly 'lived' through the ethos, the relationships, the management structure and the wider community of the school.

The review tool is organised into themed areas related to Wellbeing. A series of questions prompt a reflection of effectiveness, leading to a RAG rated prioritisation phase.

Following this, colleagues use a series of 'indicators' to assist with action planning.

The themes covered are

- Drug Education
- Sex & Relationships Education (SRE)
- Healthy Eating
- Physical Activity
- Emotional Wellbeing (General)
- Emotional Wellbeing: Anti-Bullying
- Emotional Wellbeing: Loss and Change
- Safeguarding and Child Protection
- Safeguarding Children Online
- Staff Health & Wellbeing
